

FLY BEYOND
EXPECTATIONS

I love helicopters.
The way they sound...
The way they smell...
And – most of all – the spectacular view from the sky
...it's like home.

ABOUT US

Superior Air is a well-recognized Aviation company that can provide private helicopter services for anyone. Whether you are looking for a flight transfer on your holiday, business destination, sightseeing tour or an opportunity to take pictures from breathtaking locations, Superior Air can assist you. Based in Greece, we operate from four different bases across the country: Athens, Megara, Santorini and Mykonos which means that we provide cost effective solutions to the surrounding areas and islands. Besides, we know every hidden corner of this country so we are the most convenient and perfect solution for you.

THE PRIVATE HELICOPTER EXPERIENCE

VIP Transfers

If you're planning a trip for business or pleasure, don't waste time waiting for connecting flights. One of our luxury helicopters will take you to your destination in the fastest & most comfortable way possible.

Sightseeing tours

With our specially designed Sightseeing flight packages you can discover some of Greece's best destinations in a completely different way. Imagine floating above the city on a magic carpet ride.

Day trips

Our private helicopter service is the ideal mode of transportation if your time is limited or you want to reach more than one location in one day. Book a day trip and create wonderful memories and an unforgettable experience.

Island hopping

Greece has many beautiful islands with idyllic beaches waiting for you to discover them. Fly with us and explore all the popular destinations in privacy and comfort.

Aerial photo-shooting and video-shooting

We have extensive experience in aerial photo-shooting and video-shooting flights as these types of flights require special flying skills and methodology in order to meet the requirements of the photographer.

ACH135

LIKE A PRINCE

The ACH135 strikes an optimal balance of performance, manoeuvrability and comfort that helps passengers maximize every minute of their travel time. Increased power and a redesigned avionic suite are two ways the ACH135 outperforms its original design goals and contributes to class-leading efficiency.
